

A mandatory event for Indonesian Risk Professionals in real sectors

AS/NZS 4360 RISK MANAGEMENT FRAMEWORK

- ERM from Principles to Practices -

AS/NZS 4360 Risk Management Framework has been widely used as one of the most pragmatic ERM (Enterprise Risk Management) Frameworks, helping risk professionals to get the utmost benefit of their Risk Management implementation throughout their organization.

This coaching clinic is designed for risk professionals in Indonesia to get the right **understanding of AS/NZS 4360 fundamentals** straight from a resourceful international Australian risk management expert, whilst at the same time to obtain **some best practices experiences** directly from some senior Indonesian risk practitioners.

Workshop Overview

- Discussion of AS/NZS 4360 Risk Management Framework, that covers a step-by-step implementation approach on establishing the context, identifying and analyzing the risks, conducting the risk evaluation, and developing risk treatments.
- Sharing practical experiences of using AS/NZS 4360 Risk Management Framework in Indonesia, case studies from PT Pupuk Kaltim (PKT), PT Gas Negara (PGN), and PT Rekayasa Industri (REKIND) and Australian Company.
- Coaching Clinic for participants who would like to discuss their practical concerns, challenges, and perspective regarding ERM implementation in their company (major reference AS/NZS 4360 Risk Management Framework).
